Industrial Labelling Machine

With dedicated functions for common labelling applications, easily create durable labels for faceplates, cables, consumer units and other electrical and datacom installations.

www.brother.eu

- Large backlit graphic display
- Dedicated function keys to easily create labels
- Includes tape cassette, AC adapter and carry case
- Prints 3.5, 6, 9, 12 & 18mm labels

P-touch E300VP

The P-touch E300VP is an indispensible tool for all electricians and datacom installers and comes complete with a lithium-ion rechargeable battery and AC adapter, all housed in a durable carry case. The large backlit graphic LCD, standard PC style keyboard and specialised functions have been developed to make common industrial labelling tasks quick and easy. Leave a professional impression by creating high quality durable labels for your installations.

9 barcode protocols

Include barcodes for added security and safety.

384 built-in symbols

Includes common electrical, datacom, AV, security and safety symbols.

P-touch laminated labels – designed to last

Brother P-touch laminated TZe tapes are available in many different colours and sizes. The thermal transfer ink is sandwiched between two protective layers of PET (polyester film), protecting the text against the effects of liquids, abrasion, temperature, chemicals and sunlight. As the labels have been tested to the extreme, you can be confident of a professional quality label that has been designed to last.
